

# R. DAFA BERLIAN DENMAR

## COLLEGE STUDENT

## PERSONAL PROFILE

Place of birth : Jambi  
Date of birth : March 12th 2001

I am someone who is eager to become an expert in all fields, so I try to explore myself further through various activities that I can do. I was a runner-up in an English speech competition at the city level and was the third champion in an article writing competition at the provincial level. There are a lot of things that I want to do but I have not been able to make it happen. Therefore I really want to learn from various sources. I want to improve my communication skills with people so that I can be more confident when speaking in front of people I don't know, even in front of many people. Because I believe that communication can open connections and connections is one of the keys to success.

## SKILLS

- Article writing
- English
- Programming
- Web Development
